

## Save the date - Imagining the next 100 years of diabetes

Friday, January 22nd 2021  
17.00 - 18.30 CET

Considering the progress that has been made in diabetes care since the discovery of insulin 100 years ago, we look forward to what might be in store for the next 100 years.

As part of IDF Europe's Centenary of Insulin campaign.

### **IDF Europe Webinar – Imagining the next 100 years of diabetes - January 22, 2021 – 17.00-18.30 CET**

This webinar will mark the beginning of **IDF Europe's Centenary of Insulin Campaign** – a three-year campaign which will focus on the future of diabetes care, with special consideration being given to the theme of access to care, medicines, supplies and technologies and supporting education.

The Future of Diabetes Care will focus on the developments in terms of new medicines, advances in therapies and technologies which have the potential of making a significant impact in the way that people living with diabetes manage their condition. After a quick look back at the progress made in treating diabetes over the past 100 years, the webinar will look at future solutions over the next 100 years, and end with a call to action on what is required to further support research and innovation.

#### **Moderator: Bastian Hauck**

**Opening remarks:** Prof Andrew Boulton, IDF President and Dr Niti Pall, IDF Europe Chair

#### **The discovery of insulin, the first step on a journey of innovations**

Series of testimonials on living with diabetes, followed by a presentation on the current diabetes situation, Prof. Konstantinos Makrilakis, IDF Europe Board Member

#### **What the future holds – 100 years from now**

Series of 3-5-minute presentations about future innovations, representing different aspects of research/technological developments.

- Diabetes technologies
- Pharmaceutical developments
- Other research areas

#### **Speakers and panellists:**

- Tadej Battelino, University Children's Hospital, Slovenia
- Sufyan Hussain, King's College, UK
- Eelco de Koning, Leiden University, The Netherlands
- Markku Saraheimo, University of Helsinki, Finland
- Henrik Semb, University of Copenhagen, Denmark

#### **Q&A, introduced and moderated by Cajsa Lindberg**

A series of questions will be put to the scientists/panellists, which will have been collated prior to the webinar through social media groups. This will be supplemented by live questions from the audience.

#### **Call to action**

Panel discussion on the topic of what needs to be done to foster and support innovation

**Closing Remarks** – IDF Europe Chair-Elect, Prof. Nebojsa Lalic
