

# **BLUE CIRCLE VOICES (BCV)**

## **Structure of the network**

**as of 27<sup>st</sup> March 2017**

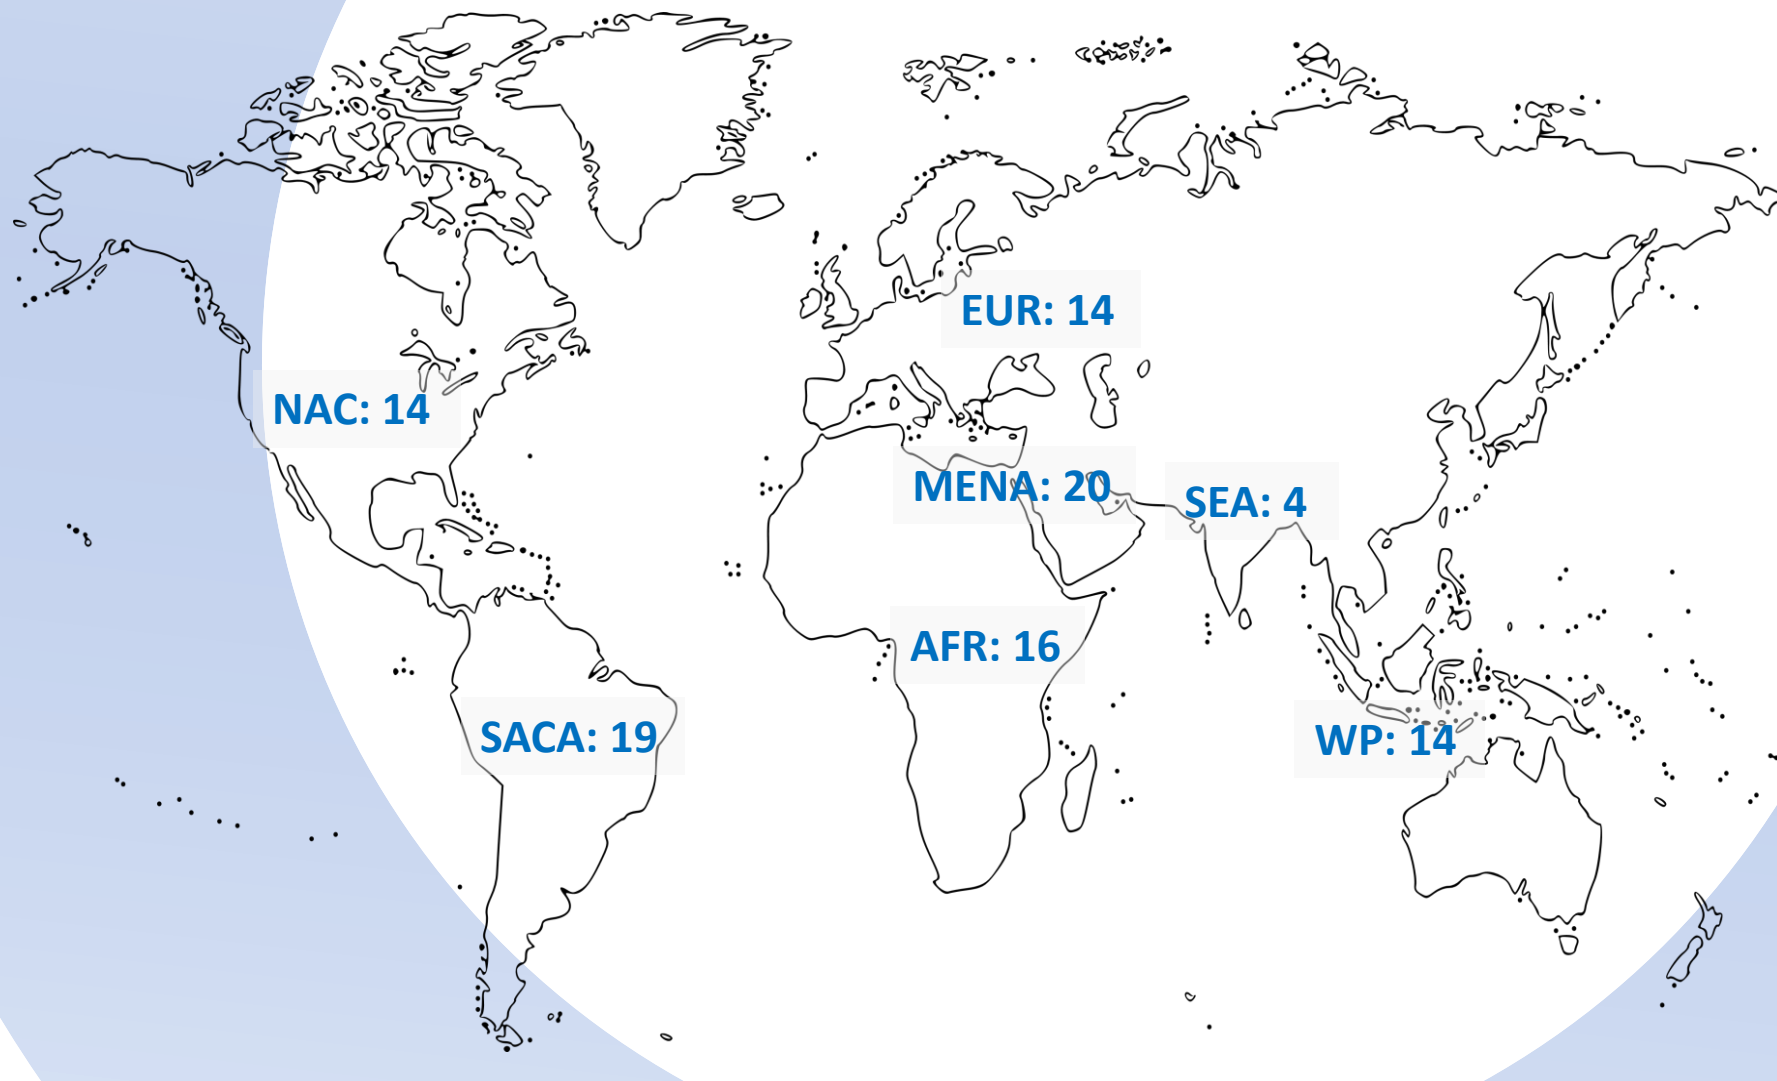

# The Blue Circle Voices network

- The Blue Circle Voices (BCV) is an IDF network including **adults living with all types of diabetes, as well as relatives of people with diabetes, of all ages and from all IDF regions**
- The intention is that consulting with the Blue Circle Voices becomes an integral part of everything that IDF does, to **add legitimacy to the claim that IDF is the global voice of diabetes**
- The key **BCV objectives** are to provide their national/regional perspective to issues of concern for IDF, participate in IDF consultations on key topics (access to care, discrimination, etc.), provide their testimonies for IDF website and specific projects and support all IDF advocacy activities. BCV members may also be able to participate in committees of IDF projects and in international meetings organised or attended by IDF
