

## Thursday 25 October

Time

Session

Stream

### Hall A

<b>14:00-15:15</b>	<b>Symposium: Neuropathy</b>	Foot - Diabetic Neuropathy and Charcot
	Diabetic neuropathy: Newer insights into pathogenesis and management	
	Can we prevent diabetic neuropathy?	
	Motor neuropathy: A neglected complication of diabetes	
	Discussion	
<b>15:15-15:45</b>	<b>Debate: Ankle-brachial index is a predictor for peripheral vascular disease in diabetes</b>	Foot - Peripheral Arterial Disease
<b>15:45-16:00</b>	Tea/coffee break	
<b>16:00-17:15</b>	<b>Symposium: Diabetes and peripheral arterial disease</b>	Foot - Peripheral Arterial Disease
	Epidemiology of atherosclerotic peripheral arterial disease: A review and recent developments	
	Potential risk factors and types of vascular calcification in peripheral arterial disease	
	Recent advances and newer technologies in the management of peripheral arterial disease	
	Discussion	
<b>17:15-18:30</b>	<b>Plenary Lectures</b>	Diabetic Foot
	Aetiopathogenesis of diabetic angiopathy	
	IDF clinical practice recommendations on the diabetic foot	
	Discussion	
<b>18:30-19:00</b>	<b>Presidential oration: Changing trends in chronic diabetes complications</b>	Diabetes Complications

### Hall B

<b>14:00-15:15</b>	<b>Symposium: Peripheral arterial disease management</b>	Foot - Peripheral Arterial Disease
	Managing peripheral arterial disease in primary care	
	Critical limb ischaemia: The need for a new model of integrated care	
	Improving care in different settings/countries	
	Discussion	
<b>15:15-15:45</b>	<b>Debate: Is diabetes the first heart attack?</b>	Cardiovascular Risk Factors
<b>15:45-16:00</b>	Tea/coffee break	
<b>16:00-17:15</b>	<b>Symposium: Diabetes and infections</b>	Diabetes Complications
	Diabetes and tuberculosis: A dual burden in 3rd world countries	
	Unusual infections in diabetes	
	Global recommendations of immunisation in patients with diabetes	
	Discussion	

## Thursday 25 October

Time

Session

Stream

### Hall C

<b>14:00-15:15</b>	<b>Symposium: Infections in diabetes</b>	Foot - Ulcers and Infections
	Genital infections - A clue to glycaemic control	
	Recurrent UTIs - mainly in post menopausal females: How to manage?	
	Sterile pyuria in diabetes - what physicians should know	
	Discussion	
<b>15:15-15:45</b>	<b>Debate: Renin-angiotensin-aldosterone system blockade can prevent or delay the progression of diabetic nephropathy</b>	Diabetes and Kidney Disease
<b>15:45-16:00</b>	Tea/coffee break	
<b>16:00-17:15</b>	<b>Symposium: Diabetes and the eye</b>	Diabetic Eye Disease
	Current recommendations for diabetic retinopathy screening: When and how	
	Improving diabetic retinopathy screening programmes: Barriers, opportunities and good practices	
	Newer developments in screening: AI, telemedicine, optical coherence tomography and ultra-widefield imaging	
	Discussion	

### Hall D

<b>14:00-15:15</b>	<b>Symposium: Wound care</b>	Foot - Ulcers and Infections
	Comparing the classifications of diabetes foot wounds	
	How to manage infected foot ulcers	
	Types of dressing in foot wound management	
	Discussion	
<b>15:15-15:45</b>	<b>Debate: Individualisation of blood pressure targets for people with diabetes and hypertension</b>	Coronary Heart Disease and Heart Failure
<b>15:45-16:00</b>	Tea/coffee break	
<b>16:00-17:15</b>	<b>Symposium: Cardiovascular risk factors</b>	Cardiovascular Risk Factors
	The endothelium in diabetes	
	Statin use in people with diabetes: Pros and cons	
	Renin-angiotensin-aldosterone system blockade in blood pressure management	
	Discussion	

### Hall E

<b>14:00-15:45</b>	<b>Workshop: Foot examinations and minor foot procedures - Hands on experience</b>	Diabetic Foot
<b>15:45-16:00</b>	Tea/coffee break	
<b>16:00-17:15</b>	<b>Meet the Expert: Prevention of foot amputations and education on the diabetic foot</b>	Diabetic Foot

**Friday 26 October**

**Time**

**Session**

**Stream**

**Hall A**

<b>09:00-10:00</b>	<b>Plenary Lectures</b>	Diabetic Foot
	The diabetic foot: Global views	
	The diabetologist, the vascular surgeon and the podiatrist: A team approach	
	Discussion	
<b>10:15-11:15</b>	<b>Symposium: Treatment strategies</b>	Diabetic Foot
	Managing patients with diabetic foot and critical limb ischaemia	
	Offloading in a neuroischaemic foot ulcer	
	Discussion	
<b>11:15-11:30</b>	Tea/coffee break	
<b>11:30-12:30</b>	<b>Symposium: Prevention of ulcers and amputations</b>	Foot - Ulcers and Infections
	Preventing recurrence of the diabetic foot ulcer	
	Preventing amputations in the developing world: The Indian experience	
	The role of educators in preventing recurrence of ulcers and amputations	
	Discussion	
<b>12:30-14:30</b>	Lunch break	
<b>14:30-15:45</b>	<b>Symposium: Diabetes and Hypoglycaemia</b>	Diabetes Complications
	Incidence and prevalence of hypoglycaemia	
	Hypoglycaemia unawareness: Ways to recognise it	
	Macrovascular impact of hypoglycaemia	
	Discussion	
<b>15:45-16:15</b>	<b>Debate: Is hypoglycaemia real or over-hyped?</b>	Diabetes Complications
<b>16:15-16:30</b>	Tea/coffee break	
<b>16:30-17:45</b>	<b>Symposium: Diabetes and bone health</b>	Diabetes Complications
	Skeletal complications of diabetes	
	Osteoporosis: An under-appreciated association with diabetes	
	Anti-diabetic therapy and bone metabolism	
	Discussion	
<b>17:45-18:45</b>	<b>Plenary Lectures</b>	Diabetes Complications
	Will "omics" dictate therapy in the future?	
	What is the correct therapy for diabetes complications: Precise or personalised?	
	Discussion	

## Friday 26 October

Time	Session	Stream
<b>Hall B</b>		
<b>10:15-11:15</b>	<b>Symposium: Acute complications in diabetes</b>	Diabetes Complications
	Diabetic ketoacidosis - master class	
	Hyperosmolar non-ketotic coma	
	Discussion	
<b>11:15-11:30</b>	Tea/coffee break	
<b>11:30-12:30</b>	<b>Symposium: Risk factors for cardiovascular disease</b>	Cardiovascular risk factors
	Modern management of hypertension in patients with diabetes	
	Recent trends in treating diabetic dyslipidaemias	
	Novel risk factors leading to cardiovascular dysfunction	
	Discussion	
<b>12:30-14:30</b>	Lunch break	
<b>14:30-15:45</b>	<b>Symposium: Diabetes and the Eye</b>	Diabetic Eye Disease
	Can we prevent diabetic retinopathy?	
	Aetiopathogenesis of diabetic retinopathy: Recent advances	
	Future of the treatment of diabetic macular Oedema	
	Discussion	
<b>15:45-16:15</b>	<b>Debate: Treatment of diabetic macular oedema</b>	Diabetic Eye Disease
	Anti VEGFs	
	Corticosteroids	
	Laser therapy	
<b>16:15-16:30</b>	Tea/coffee break	
<b>16:30-17:45</b>	<b>Symposium: Diabetic nephropathy</b>	Diabetes and Kidney Disease
	Biomarkers to judge the onset and progression of diabetic nephropathy	
	Molecular mechanisms on the pathogenesis of diabetic nephropathy	
	Chronic kidney disease in patients with diabetes: Is it always diabetic nephropathy?	
	Discussion	

## Hall C

<b>10:15-11:15</b>	<b>Symposium: Diabetes and the liver</b>	Diabetes Complications
	Diabetes and non-alcoholic fatty liver disease	
	Managing diabetes in chronic liver disease	
	Discussion	
<b>11:15-11:30</b>	Tea/coffee break	
<b>11:30-12:30</b>	<b>Symposium: Diabetic nephropathy</b>	Diabetes and Kidney Disease
	Recent advances in the pathophysiology of diabetic nephropathy	
	Clinical insights into the management of patients with progressing diabetic nephropathy	
	Chronic kidney disease in diabetes: Is it always a diabetic nephropathy?	
	Discussion	
<b>12:30-14:30</b>	Lunch break	

## Friday 26 October

Time	Session	Stream
<b>14:30-15:45</b>	<b>Symposium: Reducing cardiovascular risk in patients with diabetic nephropathy</b>	Cardiovascular Risk Factors / Diabetes and Kidney Disease
	Common aspects of pathogenic mechanism for diabetic nephropathy and cardiovascular complications	
	Oxidative stress and anti-inflammatory agents in patients with nephropathy: Do they also protect the heart?	
	Cardio-renal continuum in diabetes	
	Discussion	
<b>15:45-16:15</b>	<b>Debate: Can type 2 diabetes patients have diabetic retinopathy in the absence of diabetic nephropathy?</b>	Diabetic Eye Disease / Diabetes and Kidney Disease
<b>16:15-16:30</b>	Tea/coffee break	
<b>16:30-17:45</b>	<b>Symposium: Diabetes foot infections</b>	Foot - Ulcers and Infections
	Implementing the IDSA classification into clinical practice	
	A stepwise approach to the acutely infected diabetic foot	
	The use of imaging to diagnose diabetic infection	
	Discussion	
<b>Hall D</b>		
<b>10:15-11:15</b>	<b>Symposium: Autonomic Neuropathy</b>	Diabetes Complications
	Cardiac autonomic neuropathy	
	GI tract dysfunction in diabetic autonomic disorders	
	The urinary bladder in autonomic dysfunction	
<b>11:15-11:30</b>	Tea/coffee break	
<b>11:30-12:30</b>	<b>Symposium: The mind should never be forgotten</b>	Diabetes Complications
	The relationship between depression and diabetes: Causal or casual?	
	Is Alzheimer's disease type 3 diabetes?	
	The role of GLP1 in cognitive function	
<b>12:30-14:30</b>	Lunch break	
<b>14:30-15:45</b>	<b>Symposium: Nutrition</b>	Diabetes Complications
	Diabetes and heart disease : Which fats to eat?	
	Carbohydrate counting: How useful is it for the person with type 2 diabetes?	
	Impact of regional variation of diet on diabetes complications	
<b>15:45-16:15</b>	<b>Debate: Should a low-card, high-fat diet be used in patients with diabetes complications?</b>	Diabetes Complications
<b>16:15-16:30</b>	Tea/coffee break	

## Friday 26 October

Time	Session	Stream
<b>16:30-17:45</b>	<b>Symposium: Footwear</b>	Diabetic Foot
	Footwear for people at high risk of diabetic foot	
	The role of insoles for prevention of foot problems in diabetes	
	What after amputation: Recommendations for rehabilitation and prostheses	
	Discussion	
<b>Hall E</b>		
<b>10:15-11:15</b>	<b>Symposium: Wound dressing: Which one to choose, when and why?</b>	Diabetic Foot
<b>11:15-11:30</b>	Tea/coffee break	
<b>11:30-12:30</b>	<b>Symposium: Gadgets for the diabetic foot</b>	Diabetic Foot
	Monofilament, vibration perception threshold and tuning fork	
	Vascular Doppler and ankle-brachial index	
	Pressure plate analysis	
	Discussion	
<b>12:30-14:30</b>	Lunch break	
<b>14:30-16:15</b>	<b>Workshop: Diabetes and sexual dysfunction</b>	Diabetes Complications
	History-taking and examination for sexual dysfunction in diabetes	
	Psychosocial aspects of sexual dysfunction	
	Let's talk female sexual dysfunction	
<b>16:15-16:30</b>	Tea/coffee break	
<b>16:30-17:45</b>	<b>Meet-the-Expert: The importance of social media and communications in education and prevention of diabetic complications</b>	Diabetes Complications

## Saturday 27 October

Time

Session

Stream

### Hall A

<b>09:00-10:00</b>	<b>Plenary Lectures</b>	Coronary Heart Disease and Heart Failure
	Epidemiology and Aetiology of heart failure in diabetes	
	Cardiovascular outcome trials of commonly used antiglycaemic medications	
	Discussion	

<b>10:15-11:15</b>	<b>Symposium: Trending</b>	Diabetic Foot
	New technology in vascular Imaging of the diabetic foot	
	New technology for endovascular surgery: Drug-coated balloons and stent/new stent designs	
	Discussion	

<b>11:15-11:30</b>	Tea/coffee break
--------------------	------------------

<b>11:30-12:30</b>	<b>Symposium: Other complications</b>	Diabetes Complications
	Diabetes and cerebrovascular disease	
	Diabetes and skin manifestations	
	Diabetes and cancer	
	Discussion	

<b>12:30-14:30</b>	Lunch break
--------------------	-------------

<b>14:30-16:15</b>	<b>Symposium</b>	Diabetes Complications
	Time to overcome multifactorial therapeutic inertia	
	Use of newer technologies in patients with diabetes complications	
	Translational aspects of SGLT2i in cardio-renal protection	
	Discussion	

<b>16:15-16:30</b>	Tea/coffee break
--------------------	------------------

### Hall B

<b>10:15-11:15</b>	<b>Symposium</b>	Diabetes Complications
	Diabesity: The clinical concern	
	What is more relevant: BMI or waist circumference?	
	Discussion	

<b>11:15-11:30</b>	Tea/coffee break
--------------------	------------------

<b>11:30-12:30</b>	<b>Symposium</b>	Coronary Heart Disease and Heart Failure / Diabetes and Kidney Disease
	Genetic polymorphism in diabetes cardiovascular complications	
	Predicting diabetic nephropathy using genetic information	

<b>12:30-14:30</b>	Lunch break
--------------------	-------------

<b>14:30-16:15</b>	<b>Symposium: Newer updates</b>	Diabetes Complications
	Clinical update in beta cell replacement therapy	
	Pancreas and kidney transplantation	
	Stem cell therapy	
	Discussion	

<b>16:15-16:30</b>	Tea/coffee break
--------------------	------------------

## Saturday 27 October

Time	Session	Stream
<b>Hall C</b>		
<b>10:15-11:15</b>	<b>Symposium</b>	Diabetes and Kidney Disease
	Diabetes control in patients with diabetic nephropathy (early renal dysfunction)	
	Managing diabetes in patients undergoing regular haemodialysis and continuous ambulatory peritoneal dialysis	
	Discussion	
<b>11:15-11:30</b>	Tea/coffee break	
<b>11:30-12:30</b>	<b>Symposium</b>	Diabetes and Kidney Disease
	Kidney and pancreas transplantation in patients with diabetes	
	Clinical practice updates in the detection and care of patients with chronic kidney disease	
	Can diabetes therapies prevent chronic kidney disease progression?	
	Discussion	
<b>12:30-14:30</b>	Lunch break	
<b>14:30-16:15</b>	<b>Free Papers</b>	Diabetes Complications
<b>16:15-16:30</b>	Tea/coffee break	
<b>Hall D</b>		
<b>10:15-11:15</b>	<b>Symposium</b>	Diabetic foot
	Managing Charcot's foot	
	A team-based approach in managing the diabetic foot	
	Discussion	
<b>11:15-11:30</b>	Tea/coffee break	
<b>11:30-12:30</b>	<b>Symposium: A surgical approach to diabetic foot ulcers</b>	Foot - Ulcers and Infection
	For prevention	
	For treatment	
<b>12:30-14:30</b>	Lunch break	
<b>14:30-16:15</b>	<b>Free Papers</b>	Diabetes Complications
<b>16:15-16:30</b>	Tea/coffee break	

## Saturday 27 October

Time

Session

Stream

### Hall E

<b>10:15-11:15</b>	<b>Workshop: Wound debridement</b>	Diabetic Foot
<b>11:15-11:30</b>	Tea/coffee break	
<b>11:30-12:30</b>	<b>Workshop: Offloading techniques</b>	Diabetic Foot
<b>12:30-14:30</b>	Lunch break	
<b>14:30-16:15</b>	<b>Case study</b>	Diabetes Complications
<b>16:15-16:30</b>	Tea/coffee break
